PEOPLE AND RESOURCE MANAGEMENT SYSTEM

Maximize every dollar you invest in employees.

WebAtlante is the most complete human resource management solution for small and medium businesses, enabling you to maximize every dollar you invest in your employees.

The right people make all the difference. It's true in small companies, large companies, and everywhere else. A business itself does not generate ideas, does not provide service, and by itself is neither innovative nor productive. People make all of those things happen.

Despite the importance of the workforce, many organizations have traditionally viewed their employees primarily as a capital expense. With an eye on salaries, benefits packages, and hiring, the chief concern of many human resource departments was to reduce costs.

Today, the business environment is hypercompetitive. Health care costs are an ever-present concern. A large percentage of the workforce is retiring, while a younger generation of workers has higher expectations and is choosier about whom they will work for.

WebAtlante can help. Our industry-leading, customizable People Management solution enables you to decisively meet and respond to HR management challenges. With integrated payroll, benefits, employee manager, and analytics capabilities, we help you maximize your investment in employees. We call this the Return on Employee Investment.

WebAtlante is the most complete HR management solution for small and medium businesses-driving improved efficiency and better decision making across all your key HR tasks.

Key features

Employee Management and Core features

Time, Attendance and Shift Management

Access Control

Tasks, Timesheets and Document Control

Turn chaos into clarity.

WebAtlante connects you to all your employee-related information in ways no other solution can.

By centralizing all the current and historic information about active and nonactive employees of the organization, WebAtlante eliminates ambiguity. It gives you unmatched views of your workforce—at macro and micro levels—enabling you to securely share the data with executives and managers. The benefit? Precise, rich analytics that embolden your company leaders to make decisions based on fact rather than instinct.

Focus on what matters most

In addition to driving more informed decision making, WebAtlante reduces the time you and your team spend on clerical work. With information shared throughout the system, WebAtlante eliminates redundant data entry, keeping you focused on strategic tasks—such as improving service and developing programs that help you hire and retain the best talent.

Using WebAtlante, you can:

Manage all youre employee related information and processes in a single solution.

Make stronger decisions faster with improved access to workforce analytics.

Ensure government compliance to avoid company risk in meeting government rules, regulations, and reporting requirements.

Closely monitor employee records and personnel actions, HR compliance, benefits administration, absence management, reporting (standard and custom), and data import/export actions.

Gain control over payroll.

WebAtlante Payroll integrates seemlessly into your current accounting system.

WebAtlante Payroll module integrates seamlessly with WebAtlante and equips you to manage your attendance for payroll inhouse conveniently and securely.

When it comes to paying your people, there's no room for error. Payroll mistakes leave a bad impression on employees, and you need to keep accurate records in order to stay compliant with government regulations. Plus, you don't want sensitive data falling into the wrong hands. Gain control over one of your organization's largest and most important expenses with WebAtlante Payroll.

Take payroll in house

WebAtlante Payroll gives you accurate, timely, in-house payroll processing as well as access to your current and historical payroll information, at any time, without any barriers. By exporting your payroll data using the automated Payroll module, you stay in control.
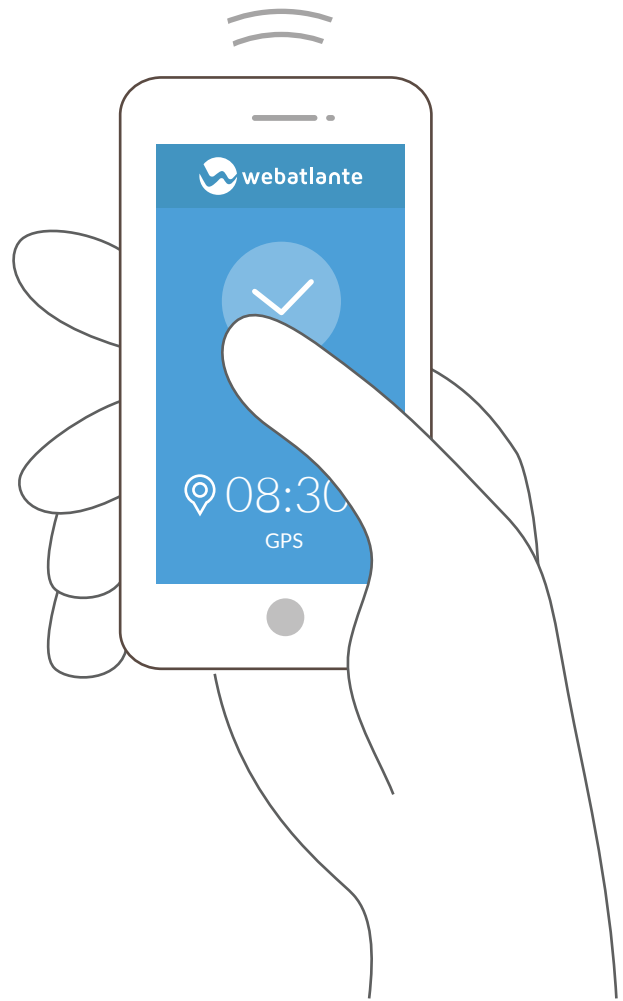

More than a one-size-fits-all solution, WebAtlante Payroll flexes to accommodate your unique business. Simplify your payroll processing and stay in compliance. Produce payroll reports and manage multi-country operations if you are internationalized.

webatlante

Manage all of HR in one place.

Bring all aspects of people management together by integrating any or all of the following solutions with WebAtlante.

Manage company resources, online, from your mobile or through proprietary devices.

Employee Management (WebAtlante CORE)

Enable your employees to request time off, review pay history, update contact information, and more—with just a few mouse clicks. Instead of calling the HR department with routine inquiries, employees and managers can access and review information regarding time off, current bene-fits, and current job details, anytime, anyplace over the Internet or company intranet.

Expenses and Travel Management

Expense and Travel Management offers an effective automated solution for expense administration and processing. Being Web based, the system can be rapidly set up and personalised, providing full expense management with travel scheduling for your staff, online approvals and expense cost analysis. Reduce your overall expense bill and easily enforce local expense policies.

WebAtlante Access Control

Designed to work together seamlessly, WebAtlante Access Control Systems are a perfect combination and provide you with the technology you need to deliver sophisticated security solutions—from the simplest to the most challenging and fully integrated with the WebAtlante Time & Attendance module.
